Hotel just from A17 on OWS. Was in bed.
Sawly awake in "Backloggers" ^{happy jump} ^{mouth,}
action. He got up + they were having dinner soon. Cat was
kneading around, he was remind up

Suddenly, building started to vibrate. About 3 minute
delays before Thomas started. She let her legs to front leg.
Thomas made two animals next one one straight. Tanya held
at it. Cat terrified. Belma cabinet down a bit, became she fell
to bed

around.

Walled the other window + looked to outside. Saw two
object in sky, low on horizon. Probably stars, dark early
a bright sun, a red moon (not seen). Returning. Was might
40 separate lights around sun and set made it glow up. Stars,
one not up. Object looked pyramid, normally by another light.

Light showed to dark inner lights then sun + glow
faintly. The separate lights were much
brighter. Many other lights - red, blue, white.
Western. Settling while she another man
murmured. But cat to get straight again, but was gone into
some bed.

Thought was something from own space, improbably beginning the
earthquake.

hung in sky. Long to SSE at $\alpha = 2^\circ$, out was western.
No strain felt. He was still felt, but felt building away
others. After that window with in north room, I knew in

40 years.

Went to window before Thomas stopped. Was the white
beam stopped. Duration of Thomas about 2-3 minutes.

Tom immediately another phenomenon, but I can't say in
anyway.

Tom says specifically was in Mt Northam, 80 mi N of Bairnsdale.
