

1967: nr. Perth, New Zealand

CEI w. odd "voice" effect.

DATELINE: NEW ZEALAND

IUF0B Investigator: David Archer
Nov. 17, 1967

A New Zealand farm manager, Alan Pool, aged 43, told local police (Perth authorities) that a UFO landed so close to his Landrover that he could reach out and touch it. He described the UFO as being 15 ft. to 20 ft. in diameter, circular, flat on the bottom and dome-shaped on the top. It appeared to be made of metal that was smokey-grey in color.

Mr. Pool shouted at the machine and - "...my own words came back to me. It was not an echo." He also reported hearing what sounded like an 'electric motor at high speed'. The UFO 'took off like a rocket' when Mr. Pool attempted to step out of his vehicle. It is interesting to note the item of the report that mentioned his voice coming back to him when he yelled at the craft. It has been suggested by many people that the UFOs are propelled by electromagnetic means and I understand this occurrence appears when you deal with extremely powerful force-fields.
