Dear Mr. Fuller:

(Handwritten note in right margin: "This is not a star...")

Enclosed is our report on The U. S. O., Date, Tuesday, Jan. 24, 1967. Time, 5:45 to 6:30 AM.

I awakened at 5:45 to note an extremely bright light through the trees, it was stationery. My first thought was that I had never noticed that star before, then thought it was too big for a star, it was about one quarter the size of a full moon, and it was the brightest thing I have ever seen. As I was staring at it, it started to move towards the East, very slowly. I ran to my sons room, watched it until it was out of sight heading towards the North. I awakened Rick, (14) and Jeff, (13) and we all ran down stairs and out the back door to see it lazily heading from North to west towards Norwalk. I can't venture a guess as to the altitude.

When we first opened the back door to watch it, it was here that we noticed the eerie thing, no noise, Not a sound.

It was still traveling its leisure path from West to South. We then ran from the back porch, through the house to the front door, out the front door to get a better view. We were like the Keystone Cops. Both boys and I were commenting about the light and how very bright it was. I said "That light is so bright, I'm surprised it doesn't hurt our eyes."

Still no noise. As the light went from the North towards the South east it stopped. It was there a few seconds and

descended quite a bit, and came towards us. Kick asked if I should call the Police. I answered in the negative, as I wanted to know what it was before calling. It continued to come. It stopped again, now green and red lights were revolving around it and the bright light faded to a dull beige. I thought it truly the most beautiful thing that I had ever seen. It stopped for a few seconds and descended quite low. It now is approximately the altitude of a helicopter, heading right for us.

The boys ran inside, Kick to call the Police and in his own words, "I'm getting out of here". It's getting closer and closer (still low). I now can detect it's silhouette. My hair literally stood on end and my legs buckled. I watched it pass overhead and I too ran inside. It was HUGE. As it passed, it lit up as all four houses on the street, and round. On the bottom a rim with port holes around it, the port holes could have been diffused lights, however, NO NOISE. Just a slight swish as it went by.

Kick has by now completed the Police call and we ran to the front door (not out this time). It was high up now, colored light, just the bright light once more and it took off like the proverbial rocket.

Here I must stress again, Mr. Fuller, I cannot afford to have my name in any way used. Thursday, when both papers came out, I had been misquoted and both items made me look foolish. I am very active both civically and politically and after reading the accounts, I felt like a baboon.

Thursday afternoon the anonymous man called. He works for the Early Bird News Service and confirmed what we had seen, only the bright light though. He had lost sight of it through the trees.

My phone rang all day, all night, right through the week and I shall spare you the details of the ribbing, crank calls etc. But shall tell you that I had at least a dozen calls from people in Westport and Weston that had seen it.

A friend called, who is a great U. F. O. enthusiast, and offered me all of his books. Before this, I had heard of U. F. O.'s and had a completely closed mind concerning them. Anyone who saw one was sure to be the victim of a hoax.

*Dear Mr. Fuller,
I am writing you
about the
situation.*

Dear Mr. Fuller:

Enclosed is our report on the... Date, Tuesday,
an. 24, 1967. Time, 5:45 to 6:10 AM.

I awakened at 5:45 to note an extremely bright light
through the trees, it was stationary. My first thought was that
had never noticed that star before, then thought it was too
big for a star, it was about one quarter the size of a full moon,
and it was the brightest thing I have ever seen. As I was staring
at it, it started to move towards the east, very slowly. I ran
to my sons room, watched it until it was out of sight heading
towards the North. I awakened Dick, (11) and Jeff, (13) and we
all ran down stairs and out the back door to see it lazily heading
from North to west towards Vorsalk. I can't venture a guess as
to the altitude.

When we first opened the back door to watch it, it was
there that we noticed the eerie thing, no noise, not a sound.

It was still traveling its leisure path from West to
South. We then ran from the back porch, through the house to
the front door, out the front door to get a better view. We
were like the Keystone Cops. Both boys and I were concerned
about the light and how very bright it was. I saw that light
so bright, I'm surprised it doesn't hurt our eyes.

Still no noise. As the light and sound moved
towards the South east it started to move...

appeared to be a ball, and some thoughts as. When asked if
should call the FBI. I answered in the negative, as I
to know what it was before calling. It continued to come
It started to move and red lights were revolving a
it and the street light from the hall voice. I thought
truly the best beautiful thing that I had ever seen. It s
for a few seconds and became quite low. It now is over
the altitude of a helicopter, heading right for us.

The boys ran indoors, back to call the Police and
in his own words, "He getting out of here". It's getting
and either still low. I now can detect it's silhouette,
hair literally stood on end and my legs buckled. I watched
it passed overhead and I ran inside. It was huge. As
as if four houses on the street, and found. On the bottom
a tip with very feely around it, the part holes could have
difficult to see, however, it didn't have a slight wobble
and it's.

It was that by now reached the Police call and we
to the front door that out of a time. It was high in low
and it was still, but it was very bright. It was about 100
the last time the object had been seen.

(L,F) JAN. 20, 10:15 PM EST, OVER LAKE ONTARIO.-- A pilot and his three passengers saw a round, glowing white object the size of a large apartment building, with a ring of red lights around it that blinked off and on. The object was above the plane at about 2,000 feet. The pilot was so disturbed by the sighting that he aborted the flight, returned to the airfield and landed. (Letter to APRO dated April 2, 1967, posted on NICAP web site.)¹⁴

(L,F,V) JAN 21, 4:15 AM MST, NE. GERING.-- Two men saw a white or silver object with red, white, and blue pulsating body lights. It hovered for about 2 minutes and then seemed to follow their car. (Hall letter, Scottsbluff, Nebr., in NICAP files.)

(L,F,M) JAN. 22, 8:35 PM EST, NC, PROVIDENCE.-- A man saw a bright light that changed to a series of lights which maneuvered, hovered, and bobbed like a cork on water. The object seemed to ascend with less effort than when it descended. (Compare to Sept. 20, 1966, Sebring, Fla., case.) A wind-like sound was heard. (NICAP report form.)

(L,F) JAN. 24, 1:00 AM EST, NY, ASTORIA.-- A witness saw a large solid object with two bright red vertical blinking body lights descend, emitting a sound like an electric shaver (buzzing). (NICAP report form.)

(L,F) JAN. 24, 6:00 AM EST, CT, WESTPORT.-- A driver for a news service saw an elliptical object with many colored lights or ports on the underside, some red, some green. The object hovered over a house for 15 minutes, then flew away. (*Westport News*, 1/26/67, copy in NICAP files.)

(F) JAN. 24, 5:25 PM PST, CA, YORBA LINDA.-- A 14-year-old boy saw and photographed a metallic-appearing object shaped like a top hat with four legs projecting from the bottom. (Hall, 2001, pp. 286-87, from "The Yorba Linda Photograph" in *Flying Saucer Review, Special Issue*, Nov. 1967, pp. 26-35.)

(F,A) JAN. 25, 6:35 PM EST, MA. So. ASHBURNHAM.-- Betty Andreassen abduction case. Craft described as oval with a rim around its circumference, and resting on three legs. (Hall, 2001, pp. 529-30, from Fowler, 1979, 1982, 1990, 1995.)

(L,F,M,P) JAN. 26, 1:30 AM EST, NY, JAMAICA.-- Three witnesses saw an oblong or oval object, gray or silver, with a red top. On top were several protrusions, along which moved green flashes of light. The object moved in erratic flight with a swirling motion and made a "weird" noise. A dog was reported to be upset by the phenomenon (animal reaction) during the sighting. (New York NICAP Subcommittee report and letter with a copy of Air Force report form, in NICAP files.)
