Dear Reader:

I would like to report a UFO sighting which I personally witnessed about ten years ago in the Country of Peru.

At present, I am living in the state of Utah and I am married and have one child and I have my own business in Salt Lake City.

In August of 1967, I was called by the "Mormon" church to be a missionary in the country of Peru. I left the United States and went to Peru and served a two year mission there.

During the month of May in 1968, I was with another missionary from Arizona whose name is Elder Guinn. We were living in Zarate which is a suburb of Lima. On the 23rd of May, just before dark, we were walking together on our way home when we spotted the UFO. It was very large and round like a dinner plate. It had many small windows from which a bright, green light shone out. The craft flew very low over our heads in slow motion. I estimate the speed at five or ten M.P.H.

The craft continued on its way and headed for a large mount called San Cristobal. On top of this mountain there is a large cross. I thought the UFO was going to collide with the cross, but it probably missed the cross by a few yards. We then lost sight of the UFO as it continued toward the Pacific Ocean.

The experience was extremely exciting for me and I wanted to share it with other people who are interested in the UFO phenoma. The one thing that stands out in my mind today was the size of the craft. Also, the UFO made no sound whatsoever as it flew over our heads. Thank-you for reading this true UFO story.

Sincerely,
