

1969: Greerton, NZ

CE1

Saucer With Windows Seen By Tauranga Couple:

Mr Allan P. Allingham, aged 47, an orchardist, and Mrs Una Allingham, aged 43, who runs a rest-home, were farewelling some guests at their home in Greerton at about 9.45 p.m. on May 12 (same as the above sighting) when they reported seeing an object shaped like an inverted bowl with a rounded top turret. The UFO came fast towards the witnesses at a height of 350-500ft and then hovered for several seconds about 70yds away before moving off quickly in a westerly direction. The UFO came in showing its upper part mostly, as though it was on its side, and went away apparently right-side up.

When it came towards the witnesses it appeared to have a glowing white band around the turret but at hover this band resolved itself into three port-holes emanating a bluish-white light of brilliant intensity. The turret

page 8.

appeared to have been spinning during movement. The saucer "skirt" below the turret was not visible at hover although protrusions could be seen underneath. However when the object moved off, the skirt glowed softly. The windows also blurred into a glowing band again. No sound was heard at any time. The object was estimated to be 40ft to 50ft in diameter. Credit: Mrs Tappenden and Mr Cooke.
