Horsham man sees UFO - 2nd time!

A Horsham man believes he has seen a new type of unidentified flying object.

Mr Fred Randel, of River-rd, has seen the object in the night sky twice — a few days ago, and about the same time last year.

"My heart nearly stopped!" Mr Randel said yesterday.

He has unsuccessfully searched books about UFO's for reports of large cloud-like objects similar to those he saw near Horsham.

The first sighting was when he slept outside on a hot night soon after last year's Apex fishing contest, at which his wife, Elsie, won a Valiant Galant car.

"It was a beautiful night and I was lying back looking straight up into the sky," Mr Randel said. "I was wide awake—the mozzies wouldn't let me sleep!"

"All of a sudden, my heart nearly stopped!"

"There was a great big shadow, about 30 feet in diameter and at about the height of Noske's flour mill!"

"It was a milky-color, almost like the bottom of a cloud, but it certainly wasn't a cloud."

Mr Randel said he experienced a strange feel-

ing just before he saw the object.

He had the same 'funny feeling' before the second sighting when he slept outside before this year's fishing contest.

"I knew a split second before that I was going to see it," Mr Randel said.

It was between midnight and 1 am when he saw the object 'more or less' following the course of the Wimmera River on its south side, travelling from east to west.

Mr Randel said the object was noiseless and travelled about the same speed as a plane.

It had no definite outline; but he believed it was made of metal because it was shiny and gave a reflection from lights near the river.

Mr Randel said the sighting could not be attributed to faulty eyesight.

"I can shoot 99 out of 100!" he said.
