_____	LIGHTS COLORED _____	SITUATED _____	STEADY/FLASHING

() TRAIL? () SURROUNDING HAZE? () BEAMS? () SPIKES? () GLOW?
COLOR _____ LENGTH/POSITION _____ DURATION _____

OTHER DETAILS: _____

OPACITY: () OPAQUE () TRANSLUCENT () TRANSPARENT () NOT APPLICABLE
TEXTURE: () SMOOTH () ROUGH () METALLIC () _____
HEAT: () NO () YES _____ ODOR: () NO () YES _____

MOTION

POINT OF APPEARANCE: DIRECTION _____ ANGLE _____ MANNER _____
(0 to 90°)

TRAJECTORY: (In terms of direction and angles above the horizon - include durations)

POINT OF DISAPPEARANCE: DIRECTION _____ ANGLE _____ MANNER _____

DURATION: _____ HRS _____ MIN _____ SEC
SPEED: () STATIONARY () SLOW PLANE () FAST PLANE () FASTER THAN PLANE () EXTR. FAST
PATH: () STRAIGHT () CURVED () CHANGING
PASSED: () IN FRONT OF: () BEHIND: () CLOUDS () TREES () BUILDINGS () OTHER: _____
ESTIMATED ALTITUDE (optional): _____
INTERNAL MOTION: () ROTATING () CHANGING SHAPE () SPLITTING UP () COMING TOGETHER

WITNESS ACCOUNT (CONTINUED)

* was driving outside of Amarillo, TX when he noticed that a certain star wasn't in sequence with the other stars

* it suddenly descended in front of the car & appeared as a saucer shaped vehicle with revolving lights (can't remember details); the most beautiful thing he has ever seen

* the ship started to expel a yellow gas which settled on the ground as a dust — size of football field

* played games with him as if it had intelligence

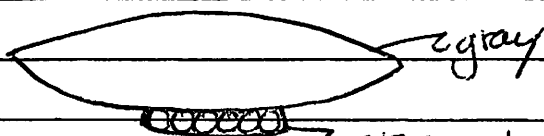

* quickly ascended & reentered star pattern

* was still visible next morning when all other stars were gone

* Mr. Freer thinks the dust is what made the cows sick in that area

* was afraid to tell anyone back in 1977, but it is now bothering him to keep it quiet

* called back later to give some more details about what the ship looked like — he made some mistakes in description earlier

* putting arm out in front — fingers would cover the whole ship

* made ship light up from bottom...
