Gentlemen:

First of all allow me to say "Thank You" for answering my correspondence concerning a U.F.O. sighting my daughter and I had in 1978. As I explained in my original letter, we did not report it to any agency at the time, because of fear of publicity and investigation. With time, however, and other experiences, I find it urgent to tell someone about our experience. I was more or less indifferent to the topic of U.F.O.'s prior to the sighting, but I was never unbelieving. I just never thought that I would be able to have such an opportunity. Since that time, we have had other sightings and other experiences. Recently, when I saw a Dr. who works at the Center for U.F.O. Studies in Evanston, on the John Davidson TV show, I knew that I just had to tell someone. Especially when he showed a sketch of the most common type of humanoid form seen close to sightings. [In February of this year, ¹⁹⁸⁰ I saw ~~which~~ a type emerging from an abandoned house almost directly in front of my house. It was about 9:00 p.m. on a moonlit night. He was short with a head that was too large in proportion to his body and his body emitted a greenish light that followed his form wherever he went. When he descended the path from the house to the highway, he disappeared in thin air right at the point where the path joins the road.]

*

As I explained in the form enclosed, directly behind our house is a large hill--P.R. is hilly. It is mostly treeless except for the tip ~~top~~ where there are many trees, with a clearing in the very center of the trees. That is where I first saw the U.F.O., plus many "night lights" since that time. That hill has a long and somewhat unclear history of

many unusual and suspicious happenings, many of these we have actually seen with our own eyes, and experiences we have actually ~~XXXXX~~ had. Some friends and myself have had what we believe to be telepathic messages or whatever you want to call them. So far, we understand that we are unexperienced in such matters, since we just recently became interested in these things, since these sightings began in this area.

What I would like, first of all, is to have this kept in the most extreme confidence, I don't want any publicity or investigation. What I DO want is information and help from someone who has had the same kind of experience I have had. Like I said, two years have passed since my first sighting, and I never reported it because of the fear of publicity, people calling me "crazy" or something, even though my daughter did see it also. Since then we have had other experiences, but nothing like that "first time". I would like for someone to write to me, telling me what I should do from here on out. I am writing around here in Puerto Rico also to see if there is a center for the study of U.F.O.'s here. There should be, if there isn't. If there is, I am soliciting their cooperation also. I didn't get a picture yet, because I want to get an instant camera first, not to have to send in film to be developed and take the chance of losing the picture forever. I hope sincerely that you can be of help to us. I think this is a very important matter. The U.F.O.'s are here for a purpose--well you know that already. I will be awaiting very anxiously your reply, and, I hope, your assistance. Thank you so much for just listening.

Sincerely,
Mrs. Barbara M. González

P.S.

The enclosed photo shows part of the area where the U.F.O. was sighted. The trees at the very back of the photo are the ones I talked about, in the center of this group of trees, is the clearing.

June 1, 1981

San Sebastián, P.R.

Gentlemen:

First of all, Thank You so kindly for your letter of May 26, in which you acknowledge receipt of my letter of September 2, 1980 where I wrote about my sightings of U.F.O.'s and related phenomena. I am a native of the state of Louisiana, but have lived in P.R. for the past 11 years with my family. I have become fluent in the use of the Spanish language, and if I am needed by your center for translation of any mail from Spanish to English or vice versa, I am more than happy to help in any way I can. For the moment, I can not send in a donation of money, but I hope to offer my services in any way in which you permit me to do so.

I was wondering why I had not heard any more from the Center in reference to my letters, and to the forms I filled out with the information about the sightings. Yes, I would very much like to hear from others who have had the same or similar experiences. I DO NOT want, however, for my name or any information that could reveal my identity to be published. Any quotes that you want to publish, feel free to do so, just as long as you respect my wish for anonymity. Any correspondence you receive relative to the matter after publishing that information, you can also feel free to refer to me for reply. I would appreciate this very much. I feel that this area is a very important one in the UFO study, if I may call it that way. I have always been interested in the matter, but I never dreamed that such a thing as an actual sighting could happen to me. My daughter of 16, who witnessed the sighting with me, is very much interested in majoring in Astronomy when she attends College. Maybe you could also orientate me about some good Universities in the U.S. where she could solicit information about the courses offered. I completed 2 1/2 years at the University of South-

CONFIDENTIAL

western Louisiana in Lafayette, Louisiana, majoring in Math. and Science. I also completed a course in typing and Shorthand. I hope I could be of some service to the Center in the future.

Well, I guess this is all for now. Hope to be hearing from the Center real soon. Like I said before, you have my permission to publish any quotes from my letters, just as long as you DO NOT publish my name or address. After that, send me any replies you receive. Also, let me know how I could be of service to the Center. The subject fascinates me. Let me Thank You again for replying to my letter, and just for caring. I hope to hear from you again real soon. Thanks.

Sincerely,

Mrs. Barbara M. González
