

1/31/81

On January 28th at 10 p.m. my sister Diane Olson and I were in my driveway at 192 California Ave. in Providence, R.I. at that time we observed what appeared to be a shooting star. ~~However~~ we noticed a strange ~~red~~ red light on the end of the object. It then began to dip and shimmy as it traveled in a semi-~~circle~~^{circle} around us and came closer to the earth.

We decided to follow the object and we did this to the end of my street which ends as a shipping port begins. As we came to the end of the road I believed the object was gone. However from my left side I saw the object rising from below the shipping yard. I followed, turning to my left, until the object was above and to the left of us. At this time we both jumped out of the car. I ran closer to the object which was now partially ~~over~~ over houses and ~~almost~~ almost over me. It then

Dear Muffin

I received per about 30 to 45 December
 and moved off shortly and returned. We
 got in the car (which although it was in
 more down the hill although it was in
 neutral) and returned it to the left and
 up the street. At this time it turned
 over sideways and at last right of it
 my sister screamed to me that it
 moved straight up and so quickly it
 was gone within 1 to 2 seconds.
 The object was very large
 almost 3/4 the width of a railroad
 box car it was round in shape and
 lay on top. The bottom looked almost
 like a landing platform. It appeared
 not seemed to be possible but even so
 further than 100 ft above me at one time.
 The bottom was a beautiful white color
 and red and blue lights (strobos) appeared
 around the upper rim. A strange gust came
 over the area when it hovered except for
 a slight hum from the U.F.O. also some
 eyes began to write quite a bit when
 we were under the object

P.S.

Please excuse poor writing
but I am short on time. I would
have otherwise typed this.

where I am staying until 2/15/81)
after 2/16/81 I will be
at: 1185 Narragansett Blvd.
Cranston, R.I.
Apt. 121

1/31/81

Wednesday night about 10:00pm
I asked my sister Leesa
to take me out for a pizza
and she said yes. Then we
went outside and I happened
to look up in the sky and
saw a shooting star
I said "oh look Leesa a
shooting star" and she
said "that's not a star
then I said its a plane,
its going to crash.

She said "you know what.
It looks like a UFO.

Then we both were laughing
and we jumped into the car
and we followed it all
the way down to the end
of the street. We both

did not see it anymore
and then we take a left
turn up a side street.

Leesa says well I guess
Dad we well never
know what it was. then
all of a sudden

this Big thing comes from
the sky towards us.
we jumped out the car.

it had all kinds of
lights all different colors
around it. then it went
right up in the sky again.
as it was going up it
turned on its side.

I rolled down the car
window and I was hanging
out it and I saw it go
straight up and then disa-
ppear. I have enclosed a
picture of what it looked like
to me.
