THE mysterious sightings and close encounters continue - right here in the Midlands. Just 15 days ago on the night of Saturday, January 10, 2 voung Midland couple claimed the latest sighting to cause a stir among Midland UFO investiga-

A quiet trip out to a country pub turned into a frightening brush with the unknown for 23-year-old audio typist Lynn Simonds and her boyfriend, Peter Higgins, a bank cierk.

Suddenly the lights started to descend and were soon close to ground level, says Lynn, from Wythall. The object was about a quarter of a mile away.

"It looked as though it was coming down to land. I could see that the lights formed part of a much larger, oval shaped object, partly illuminated along its entire length by moving orange

"It was too long to be an acroplane and a completely different shape. I couldn't see any wings.
"I was absolutely terrified. Nothing usually frightens me, but that did. We just couldn't work out what it was.

"Then we went to turn the car round and look for witnesses and

round and look for witnesses and when we looked again the object had vanished completely. It was extraordinary. No-one clse had seemed to notice it so it could not have been making much noise."

Mr. Gary Lanham, of the Unidentified Flying Object Investigation Service, who was the first investigator to learn about the case, said: "Miss

Simonds is a very down-to-earth person who would be most unlikely to make up stories or let her imagination run away

"Many cases have been documented in which the object has disappeared when the wit-nesses have looked around for nesses have looked around for other people who may have seen it. There is a theory that the intelligence behind the UFOs wants them to appear only to selected people."

UFOSIS is now making a full investigation into the event. Other sightings can be reported to Mr. Eric Westley, of UFOSIS, on 021-07 0254.
