

STANLEY LINE SAUCER AS SEEN AT GREENVILLE, MICH. - ON HIS JAPAN - 1947-04-08.

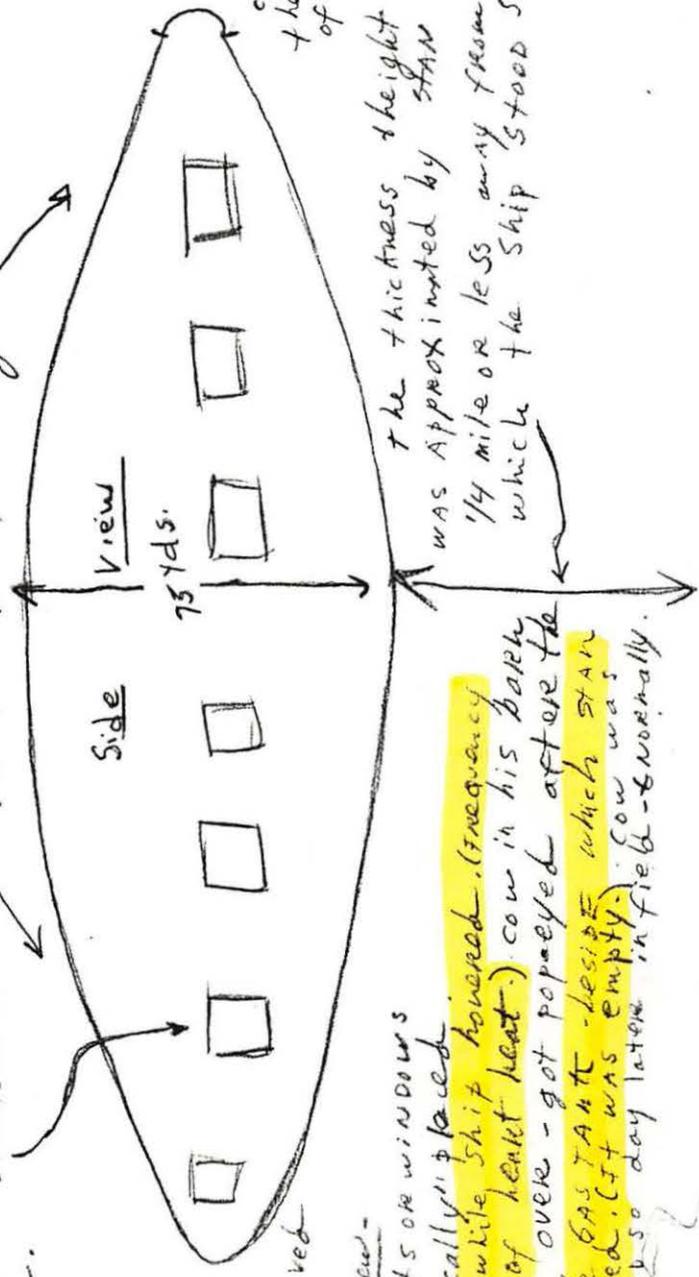

Note: STAN says he cannot wear a watch - due to Body "magnetism".
LIGHTS SHINING thru the windows or ports was so brilliant that the light caused STANLEY'S eyes to be affected for several days after (scintillation) of lights around the periphery of the eye).
(Saw 3 "STARS" first in formation, one dropped down, he fell down with 2 buckets of hot water. His eyes "hurt" for several days(?) or were affected.) Had "religious" or "revelant" feeling for several days AFTERWARDS. Strong "compulsion" to WALK towards ship - but he didn't.

Lights within the ship of various-colored - mainly bluish-white - seemed to change - scintillate - RADIATE - similar to phosphorescence.

Bottom view - Looking up - STAN saw more than a dozen lights around the periphery.

375 TO 400 YDS. long

View
75 YDS.
Side

The ship was curved above & below.
Perspective - Side view -

-cigar-shaped - ports or windows were "mathematically" placed

GROUND pulsed white, ship hovered. (frequency similar to RATE of heart beat). cow in his back was shivering ALL OVER - got pop-eyed after the saucer event - THE GAS TANK - beside which STAN fell. Also vibrated. (It was empty). Cow was to have calf - also day later in field - normally.

AT the edge of the light conformed to the rounded edge of the ship.

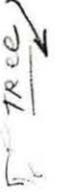

The thickness the light of the ship was approx. 1/4 mile or less away from the trees over which the ship stood still.
