COMPOSER - ORGANIST

1 FIRST STREET, SARATOGA SPRINGS, N. Y. 12866

To the President of Colorado University

Dear Mr. President:

I am very much interested in an investigation of aerial phenomena.

I had high hopes for the University of Colorado investigation by Dr. Condon.

I have just read the article in LOOK magazine.

All I can say is SHAME - SHAME - SHAME to Colorado University and the cause of science.

Sincerely,

Stanley E. Saxton.

Professor.

Skidmore College.
Saratoga Springs, N.Y.

The Regents of the University of Colorado
Boulder, Colorado

Gentlemen:

After reading the article by John Fuller in the current issue of "Look" magazine, I find it questionable that the University of Colorado ever accepted the UFO project for research in good faith.

If Robert Low's peculiar memo to University officials before the contract was signed did not receive demurrals from those University officials, then the University of Colorado should give the \$500,000 back to the Air Force.

Yours truly,

Mrs. J. R. Hennessy
