Office of the President  
University of Colorado  
Boulder, Colorado

Dear sir,

I wish to commend Colorado University for its remarkable accomplishment of perpetuating, what is in my opinion, a contrived deception (in collusion with the Air Force, government, and newspapers) on we, the people - and with our own tax money to boot. You certainly must have a deeply satisfying feeling of pride of contribution to our great society. I shall do what I can in my small circle of worldly contact to spread the forthcoming knowledge of your epic investigation. As an afterthought, may I add, isn't it a shame that our present crop of students do not always seem to appreciate this "father knows best" program so firmly implanted by our government and now shared by at least one of our institutions of higher learning?

Sincerely yours,

*Omar C. Mehl*
