

Int. Memo

## MEMORANDUM

For EUCondon

May 25, 1967

From DRSaunders

Subject Current UFO Sighting Statistics

The following figures are by date of sighting, and are not corrected for possible duplication (which is in any case at such a low level as to imply that most reports don't reach us yet via any channel!):

	Blue Book	NICAP	Mail	Phone	Total
November 66	33	3	15	?	51
December 66	20	5	13	?	38
January 67	19	33	19	?	71
February 67	23	123	21	?	167
March 67	63	63	43	?	169
April 67	34	26	13	?	73
May 67	5	0	2	?	7
Total	197	253	126	?	576

Of 218 specific old cases requested from Blue Book during or prior to February, 97 were furnished in time for inclusion in the computer run on which this memo is based. An unknown fraction of these are treated by Blue Book as "No Case -- For Information Only," meaning they were never reported through official channels. 69 more old cases were requested in May. In addition, some old cases requested non-specifically -- as "unidentified" -- have been furnished.

I'm currently trying to pull together all the material on phoned-in reports, and expect to be able to come up with figures in the future. The mail answering situation is an even bigger mystery.
